* The material reason of difference is because of the fact that few sales /purchase bills are entered in the books of accounts with a delay of few days as compared to receipts / dispatch of goods due to the late receipt of those bills in the accounts department for making necessary entries in the books of accounts. Also, there were certain advance receipts from the suppliers, which were identified during the course of audit procedure and henceforth the variance in value of debtors was seen.

As certified by the management and as verified by us value of stock is determined by the accounting software used by the company only after closing the books of accounts of the company for a particular period i.e. on 31st March 2023. Henceforth, it is not possible to determine value of paid stock as per books on each date of stock statement submitted by the client to the bank.

The company has a practice of physically quantifying and valuing the stock every month on the date of submission of monthly stock statements to the bank and the said value of stock derived on such monthly physical valuation of stock is incorporated in the stock statements submitted to the bank.

(Referred to in paragraph 1(f) under ‘Report on Other Legal and Regulatory Requirements’ of our report of even date) Report on the Internal Financial Controls Over Financial Reporting under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 (the “Act”)

We have audited the internal financial controls over financial reporting of **SUNRISE EFFICIENT MARKETING LIMITED** as of March 31, 2023 in conjunction with our audit of the standalone financial statements of the Company for the year ended on that date.

Management’s Responsibility for Internal Financial Controls

The Company’s management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the “Guidance Note”) issued by the Institute of Chartered Accountants of India. These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company’s policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Act.

Auditor’s Responsibility

Our responsibility is to express an opinion on the Company’s internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note issued by the Institute of Chartered Accountants of India and the Standards on auditing prescribed under Section 143(10) of the Act, to the extent applicable to an audit of internal financial controls. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor’s judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company’s internal financial controls system over financial reporting.

Meaning of Internal Financial Controls over Financial Reporting

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that

- (1) Pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company;
- (2) Provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and
- (3) Provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, to the best of our information and according to the explanations given to us, the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at March 31, 2023, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note issued by the Institute of Chartered Accountants of India.

- 5.6(a) The material reason of difference is because of the fact that few sales /purchase bills are entered in the books of accounts with a delay of few days as compared to receipts / dispatch of goods due to the late receipt of those bills in the accounts department for making necessary entries in the books of accounts . Also , there were certain advance receipts from the suppliers , which were identified during the course of audit procedure and henceforth the variance in value of debtors was seen.
- 5.6(b) As certified by the management and as verified by us value of stock is determined by the accounting software used by the company only after closing the books of accounts of the company for a particular period i.e. on 31st March 2023. Henceforth, it is not possible to determine value of paid stock as per books on each date of stock statement submitted by the client to the bank.

The company has a practice of physically quantifying and valuing the stock every month on the date of submission of monthly stock statements to the bank and the said value of stock derived on such monthly physical valuation of stock is incorporated in the stock statements submitted to the bank.

However the value of stock as on the closing of books of accounts on 31.03.2023 as per books of accounts has been identified by the company and the same is stated above.

- 29.1 Due to significant investments in short-term loans and advances as well as the company paying off the majority of its working capital loan, the current ratio of the company has sharply increased in comparison to the previous year.
- 29.2 The company had issued its first initial public offering (IPO), which contributed to a rise in the company's share premium account and the company's sales turnover had significantly increased, both of which helped to boost net profits. Additionally, the majority of the company's short-term loans had been repaid in current financial year.
- 29.3 The firm had successfully completed its first public offering (IPO) by issuing 13,80,000 shares @ ₹121/- per share(having face value ₹10 per share), and going forward, even though its net profit after tax climbed, the profit split among shareholders declined comparatively.
- 29.4 There was significant increase in the sales turnover of the company along with increase in short term loans advanced and henceforth the Net capital Turnover Ratio had declined in comparison to previous year .
- 29.5 Due to the increase in the base i.e company's capital which had been increased because of initial public offering (IPO), the fluctuation in Return on Capital Employed in comparison to the previous year had decreased.
- 29.6 The Return on Investment can not be computed for investments made in Mutual Fund as the same was invested in Growth Fund and no dividend was received during the year. Further , as per accounting policies followed by the company , investments in mutual funds are valued at cost or market value whichever is lower as on 31.03.2023. Since the investment has not been re-stated as on date of balance sheet , the return on the same has not been computed and hence ratio could not be determined.
- 29.7 In comparison to the prior financial year, the company's total turnover increased by 51%.The Second Wave of Covid-19 had a significant impact on the years 2021-2022, which is why there was a significant increase. Additionally, the business had expanded through the Thane Branch and included a number of additional goods under the Industrial division. As a result, there is a difference in ratios as compared to the most recent financial year because of the increase in sales turnover.
- 29.8 As the management uses the company's working capital money to pay off its debt more quickly than it did the previous year, the accounts payable turnover ratio for the company increased from the prior year.
- 29.9 There was a significant increase in total turnover of the company because the business had expanded through the Thane Branch and also included a number of additional goods under the Industrial division. Henceforth , the company's ability to pay off their total debts for the F.Y.2022-23 had improved significantly in comparison to previous financial years.
- 29.10 The notable increase in Interest Coverage Ratio clearly indicates a better position of company's competence to pay off its debt , as there was crucial growth seen in the sales turnover of the company in its industrial division .
- 30 As per regulation of SA-610 i.e. "Using the work of Internal Auditor" as provided by ICAI, we have relied on the report of internal auditor M/s Rachna Patel & Associates appointed by the company for conducting day-to-day audit of the company. The company's standalone financial figures for the year ended March 31, 2023, and the half-year ended September 30, 2022, have been examined by internal auditor M/s Rachna Patel & Associates and we have relied on their report for any discrepancies.
- 31 As the company is listed on SME Platform of BSE, it has been exempted from applicability of IND-As as per proviso to rule 4 of Companies (Indian Accounting Standards) Rules, 2015. The Company has adopted Accounting Standards as notified by Ministry of Corporate Affairs. Accordingly, these financial results have been prepared in accordance with the Accounting Standards prescribed under Section 133 of the Companies Act, 2013 and other accounting principles generally accepted in India.
